## **Loudoun Soccer Inks Exclusive Partnership with College Vision**

### ***Leading Northern Va. youth club to provide players with first-rate admissions assistance***

LEESBURG, VA. – Loudoun Soccer is proud to announce an exclusive partnership with College Vision, a premier college admissions planning company founded and based in Northern Virginia, to provide players and parents with information, guidance and evaluation for their college selection process.

The unique arrangement gives all Loudoun Soccer families discounted access to College Vision's personalized consultation services, which includes comprehensive academic assessments, curriculum advice, career and time management coaching, practice testing for standardized tests and college application essays, financial aid planning, scholarship advice and more.

All club members can take advantage of a complimentary academic review and practice SAT testing, as well as a 10% discount on all College Vision products and services. Many of College Vision's offerings are accessible via a web-based program which makes it straightforward and convenient for parents and students alike.

"The university admissions process seems to get more demanding every year, and it can be particularly challenging regardless of whether or not a student is looking to continue their soccer career in college or if they are attending just for the academics," said Loudoun Soccer Executive Director Alan Foy.

"This is what makes our partnership with College Vision different -- it's club-centric and it puts the academics and the college admissions process first.

"Our partnership with College Vision helps us prepare our players for success both on and off the field, and this is a huge benefit to our members."

College Vision will provide seminars for Loudoun Soccer members and coaches in coordination with club clinics and other events, and will assist Loudoun Soccer with its online college preparation content, including "webinars" and podcasts.

"College Vision is excited about the relationship with Loudoun Soccer. Loudoun Soccer understands the value of balancing academics, athletics and getting a good education," said Randy Trombly, College Vision's co-founder and chief operating officer. "I think Alan said it best: 'Not all our players will play soccer in college, but all our players will be going to college.'

"We look forward to working with Loudoun Soccer on this journey."

College Vision was founded in Purcellville, Va. in 2006 by Randy Trombly and Mark Stavish, former AOL executives who saw the need for a college admissions planning and guidance service when their own children began the application process in high school. The company emphasizes positivity and perseverance in helping students and parents achieve their higher education goals through planning, communication and accountability.
