

**Worried that your son or daughter
may not get into the
college you want?**

A clear path is within sight! Start planning for college now...with

CollegeVision

CHARTING THE PATH TO EXCEPTIONAL FUTURES

Do you know a parent who has said something like this?

"We didn't get serious about the College Admissions Planning process until my son's Junior Year. And through sad experience, we learned that his study habits, grades, and extracurricular activities weren't good enough to get him into the colleges we (and he) wanted him to attend. We should've started way back in the 8th or 9th grade!"

This is why College Vision was established. . .to help parents--like you--successfully get your high school students on-track for getting into college!

Here are some of the valuable Coaching Services that we provide:

- We conduct comprehensive Academic Assessments.
- We work with you to develop specific goals to 'push' your child toward better Time-Management, improved Study Skills, and greater Academic Performance.
- We assist with SAT & ACT Test-Preparation.
- We provide personalized family Financial Planning for college.
- We can help you secure Scholarships & Financial Aid.
- We have Coaching Programs for 9th, 10th, 11th, and 12th graders.
- We also have coaching programs for Student Athletes, and for those with Special Talents. . .such as Music.
- We'll also 'hold-your-hand' throughout the entire College Application Process.
- . . .And we even provide coaching suggestions for Parents.
- Remember. . .Early Planning will increase your chances of getting into the college of your choice!

**The absolute 'best time' to get started preparing for College
...is at the beginning of the 9th Grade ...or even before!**

'College Vision'
will provide your children with their
very own personal **'College Admissions Coach!'**

What parents are saying about College Vision...

"We're extremely happy with the work College Vision has done in raising awareness of the importance of a good head-start and early planning for college. Our son's grades have already jumped up, he has a plan to fill in the gaps, and he's showing a lot of interest in the overall process of qualifying for a quality school."

Here are 3 more important things for you to consider...

1.

Not only will our coaches help to simplify a very complicated, time-consuming, and often confusing process (and even help fill-out the forms...and meet the deadlines!)...but they'll do so in a way that's fully-individualized for your family!

2.

Imagine the peace-of-mind (and reduction in stress!) that you'll feel by knowing that your son or daughter's college future is being strategically-planned & expertly-guided through College Vision's highly-effective College Admissions Coaching Process!

3.

Sometimes it's hard for high school students to understand that the choices that they make now...are going to have a dramatic effect on them when they're ready to start applying to colleges. That's why we're here...we "chart the path to exceptional futures!"
